During my Bachelor degree as a civil Engineering , I wrote my first lines of code and discovered that my passion was to resolve problems though the design of algorithms. Front-end and Back-end Web development calls to all my passions; it incorporates creativity and problem solving. After more than 800 + hours of coding in Henry's bootcamp. I've learned how implement within real projects widely used technologies such as : React-Redux, JavaScript, Node Js, SQL, Sequelize , HTML, CSS among many others.
